Data Engineer	\$90.68	\$93.40	\$96.20	\$99.08	\$102.06

(The rates above include the Industrial Funding Fee (IFF) of 0.75%.)

Service Contract Labor Standards: The Service Contract Labor Standards (SCLS), formerly the Service Contract Act (SCA), apply to this contract as it applies to the entire Multiple Award Schedule and all services provided. While no specific labor categories/services have been identified as being subject to SCLS due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29 CFR 541.300), this contract still maintains the provisions and protections for SCLS-eligible labor categories. If and/or when the contractor adds SCLS labor categories/employees to the contract through the modification process, the contractor must inform the Contracting Officer and establish an SCLS/SCA matrix identifying the GSA labor category titles, the occupational code, SCLS labor category titles, and the applicable WD number. Failure to do so may result in the cancellation of the contract.

LABOR CATEGORY DESCRIPTIONS FOR SIN (561320)

Labor Category: Software Engineer

Minimum Education: Bachelor’s degree in the Arts or Science Associate and 3 years’ experience

Minimum Experience: 6 years

Functional Responsibility:

A software Engineer develops technical designs and specifications for software products. Researched and integrated design strategies, product specifications, development schedules, and user expectations into product capabilities. Uses software development technologies and tools to build, test, and maintain product modules, components, and subsystems. Provides technical leadership to lower-level developers. May provide product demonstrations and participate in trade shows and seminars. May require interaction with customers, vendors, and external development partners. Familiar with a variety of the field's concepts, practices, and procedures. Relies on experience and judgment to plan and accomplish goals. Performs a variety of complicated tasks. A wide degree of creativity and latitude is expected. Typically reports to a manager or head of a unit/department.

Labor Category: Senior Software Engineer

Minimum Education: Bachelor’s degree in the Arts or Science Associate and 3 years’ experience

KNS IT GROUP

TECHNOLOGY DRIVEN SOLUTIONS

Minimum Experience: 8 years

Functional Responsibility:

Oversees technical design, development, and implementation of large projects and/or major software products and systems. Assists in defining architecture requirements and establishing standards for design and development. Consult with management and customers regarding product feasibility and viability of product plans and designs. Factors such as emerging technologies and product supportability into design and implementation. Serves as a primary technical resource to the development team. May act as the team leader in prioritizing group tasks, determining individual assignments, and reviewing the work of lower-level developers. Provides product demonstrations and participates in trade shows, seminars, industry panels, and user group meetings. Interacts with customers regarding strategies, requirements, problem-solving, and support. This is normally the senior non-management developer level. Typically reports to a manager or head of a unit/department.

Labor Category: Data Engineer

Minimum Education: Bachelor's degree in the Arts or Science Associate and 3 years' experience

Minimum Experience: 8 years

Functional Responsibility:

8+ years of extensive experience and hands-on working knowledge in various domains of the IT industry. Dedicated and results-driven Data Engineer with [4+] years of experience in designing, developing, and managing end-to-end data solutions on the Azure cloud platform. Proficient in Azure Data Factory, Azure Data Lake, Azure Synapse Analytics, Data Bricks, and other cloud-based technologies. Skilled in ETL processes, data migration, and visualization using Power BI.
